

Special Features of Brown Curtainside Vans and Trailers

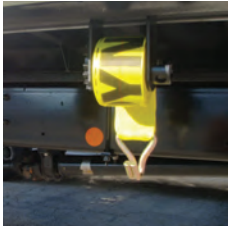

Rolling roof support post

Doesn't require removal from truck or trailer so as not to get damaged or lost. Can be moved to either end of curtain opening for unobstructed loading and unloading.

Quick release at rear

With a ratchet tensioner at front and a quick release at the rear, our curtains can be opened and closed without having to re-tension. In lieu of a quick release, an second ratchet tensioner may be added at the rear.

Sliding or fixed winches

Keep your cargo secure with winches and straps from Brown Cargo Van. May be movable or fixed in place.

EZ step ladder

Get safer, easier access to your cargo with a ladder mounted to the side or rear of your curtainside.

Sliding or fixed E-track

Secure your cargo with E-track in your trailer or van. Whether fixed or movable, this system provides the versatility you need.

Additional options

- Side or rear mounted liftgate
- Rear-mounted forklift kit
- Trailer hitches
- Heavy duty floor tie downs
- NoseCone® aerodynamic devices
- Square front
- Demountable body

Sliding Bow

As a distributor for Chameleon Transportation Systems, we are proud to sell and install their rolling tarp systems. If you need the advantages of a curtainside with the ability to top-load, these sliding bow systems are the ideal solution.

make loading **EASY**

Why waste time covering your cargo with tarps?

With a curtainside van or truck from Brown Cargo Van, you can load your cargo with ease. A curtainside protects your freight and employees like a cargo van, so stop struggling with tarps and get on the road in no time!

www.bcv.com

Fully-closed sides

Similar to a dry freight van, your load is protected from the elements. We can install curtains on one or both sides of your van.

Turn your flatbed into a curtainside

Do you currently have a flatbed truck or trailer and wish it was a curtainside? No problem! We can install our curtain system on your equipment. Avoid the cost of a new piece of equipment and call us for a quote today!

Custom tailored to your needs

Brown Cargo Van can provide steel, combo or all-aluminum trailers, closed tandem or spread axle configurations, built-in scales, air-ride suspension, etc. We will build the curtainside that YOU want.

Full-opening sides

Like a flat bed, a curtainside allows ease of forklift side loading—ideal for long, bulky material.

Graphics

Your logo looks great on the side of a curtainside van or trailer. Maximize your exposure and advertise your company with custom graphics from Brown Cargo Van.
